areas of expertise

- Open science
- Research data management
- Data analysis
- Academic research
- Project management (Podio, Globiflow)

work

2016-current **CONSULTANT** *Research Consulting Limited*

I work as a consultant at Research Consulting in Nottingham. My job is to provide expert support and independent advice on many matters related to higher education, including open access, skills and infrastructures for open science, research impact, research analytics and visualisations, text and data mining, and academic publishing. For more information on the path that led me to work in this field, see [this page](#) on my personal website.

education

2016 **PHD IN CIVIL ENGINEERING** *University of Nottingham, UK*
Thesis title: Energy harvesting pavements using air convection

2014 **MSC IN NUCLEAR AND ENERGY ENGINEERING** *Politecnico di Torino, Italy*
Final project: Exergy analysis of energy production systems, arising from six months of research at Virginia Tech, USA

2011 **BSC IN ENERGY ENGINEERING** *Politecnico di Torino, Italy*

research experience

I have research experience in Italy, the USA, and the UK. I co-authored a number of articles and you can find them on my [personal website](#). My work on open science and research data management is available on my [ORCID profile](#).

qualifications

PRINCE2 Certificate in Project Management, Microsoft Office Specialist, Google Digital Garage
